

INTERNATIONAL PRIZE FOR UNIVERSITY PROJECTS IN SCHOOLS OF ARCHITECTURE AND LANDSCAPE AND INTERNATIONAL EXHIBITION

Barcelona, 28.04.2020

Object: Official invitation

Dear colleague,

We hope this email finds you well and safe. Following the global crisis, **the Rosa Barba and Internationals' School Prize deadlines have been delayed until May 30th**. Health is first, and more time was needed, so we will be around for support while pushing forward the Prizes. Nonetheless, we are using this lapse of time to reorganize our website and offer more contents like the Landscape Projects Archives:

<http://www.arquitectes.cat/landscape/schools>

We would like to invite again your university to participate at the **11thInternational Biennial of Landscape Architecture**. Your contribution is essential to complete the international panorama.

Since its inception, the Biennial has expressed its will to **study and discuss interventions in landscape**. For this reason, we would like you to **accept our invitation to this call** to enrich the debate in landscape architecture, **providing the best 5 university projects of your school**.

The organization of the Landscape Biennial is aware of this extraordinary situation so we put ourselves at your total disposal, and we are working to expand and have all the academic projects during the next month.

Further information, inscriptions and regulation can be found in our webpage (<https://landscape.coac.net/>).

Best regards,

Marina Cervera Alonso de Medina
The organizing committee
