### Work Offered

Architectural, Urbanistic and Design Studies, CAD drawing,

Are you fascinated by the integrated process that deploys buildings to add real quality to their immediate environment? Do you dream of designing buildings that make the city and their immediate surroundings more beautiful? Do you want to learn the intricacies of careful detailing, both during the sketch phase and during realization? Then you could be a good fit for our team.

What to expect from an internship at X Architecture:

You will work on projects ranging from the concept to the implementation phase, developing your design and presentation skills. You will gain experience working out details and translating your ideas for more beautiful places into inspiring drawings and designs. You will be part of a team in which you will provide your knowledge and skills for future-proof constructions of new projects.

As a member of one of our design teams led by an experienced architect, you will have your own personal mentor to guide you in your development. You will do all this at our office in the heart of Bucharest, at the 16th floor of One Tower which is our project, where you can learn with more than 50 enthusiastic colleagues.

If you are team player with the ability to organize own work and keep deadlines, and clearly communicate with Project Leaders and team members; If you are eager to learn, enthusiastic, creative and like working in a team can get your ideas across in images and words fluent in English; Good knowledge of Autocad, familiar with 3D software such as SketchUp Revit or 3D Max preferred. Sounds good?

Please submit your CV and portfolio (max. 5MB).
